Part 2. Reading Comprehension

Task 1 (Time: 10 min)

Make one text putting the paragraphs A-E into the correct order from 1-5 in your answer sheet.

A Finally, the wonderful school has the wonderful director, Ant de Boer. He wants his students to learn that it is very important to care for nature. The school motto says: *Southern Cross aims to be a 'School for the Planet'*. And it really does!

B In one lesson, students apply the principles of mathematics to the study of local wildlife. Younger students count how many kinds of animals drank at the nearby river during the night. Older students measure how much water the animals drank.

C Look around your classroom. Do you see students sitting at desks? Are teachers writing on a board and giving lectures? At Southern Cross School, near the famous Kruger National Park in South Africa, things are different.

D After math, in language classes students usually talk. In one recent debate, students discussed an important question: should people give water to wild animals during a dry season?

E Both the park and the school are home to wild animals such as giraffes, impalas, and wild pigs. Students at the school study the same subjects as other students in South Africa. But at Southern Cross the teachers and students go out into the wild to learn.

Task 2

Now read the text again. For items 6-10 match the ending of each sentence (A-E) to its beginning. There is one extra ending you do not need to use.

6. Southern Cross is close to...
7. Southern Cross is different from most schools...
8. To learn mathematics, students at Southern Cross...
9. To improve their language skills, students at Southern Cross...
10. The Southern Cross school wants students to...

- A. might have a debate or a conversation about nature.
- B. take care of the environment.
- C. Kruger National Park in South Africa.
- D. might count how many animals drank at the river.
- E. because students often have lessons in the wild.
- F. take care of animals in dry season.
